

# Immunization Non-Medical Exemption Form

Vaccines are one of the greatest public health achievements of the past century and save an estimated 3 million children's lives every year. The Colorado Department of Public Health and Environment strongly supports vaccination as one of the easiest and most effective tools in preventing diseases that can cause serious illness and even death. For nearly all children, the benefits of preventing disease with a vaccine far outweigh the risks. Colorado law C.R.S. § 25-4-902 requires all students attending any school in the state of Colorado to be vaccinated against certain vaccine-preventable diseases as established by Colorado Board of Health rule 6 CCR 1009-2, unless an official exemption form is filed.

This law applies to students attending child care facilities licensed by the Colorado Department of Human Services, public, private and parochial kindergarten, elementary and secondary schools through 12<sup>th</sup> grade, and colleges or universities. Prior to kindergarten, an official non-medical exemption form must be filed each time a student is due for vaccines according to the schedule developed by the Advisory Committee on Immunization Practices.<sup>1,2</sup> From kindergarten through 12<sup>th</sup> grade, an official non-medical exemption form must be filed every year during the student's school enrollment/registration process<sup>1</sup>. Students with an immunization exemption may be kept out of a child care facility or school during a disease outbreak; the length of time will vary depending on the type of disease and the circumstances of the outbreak.

I am the parent/guardian of the above-named student or am the student himself/herself (emancipated or over 18 years of age) and have a religious or personal belief that is opposed to vaccines. By signing this form, I am declining the vaccine(s) required for school entry for my child/myself, as initialed above, and understand the following:

- My child/I may not be able to attend child care or school during a disease outbreak.
- Some vaccine-preventable diseases are common in other countries and my child/I could easily get one of these diseases while traveling or from a traveler.
- Failure to follow the advice of a physician, registered nurse, physician’s assistant, or public health official who has recommended vaccines may endanger my child’s/my health or life and others who come into contact with my child/me.
- I may change my mind at any time and accept vaccination(s) for my child/myself in the future.
- I can review evidence-based vaccine information at [www.colorado.gov/cdphe/immunization-education](http://www.colorado.gov/cdphe/immunization-education), or [www.ImmunizeforGood.com](http://www.ImmunizeforGood.com) to learn about the benefits and risks of vaccines and the diseases they prevent.
- I can contact the Colorado Immunization Information System (CIIS) at [www.ColoradoIIS.com](http://www.ColoradoIIS.com) or my health care provider to locate my child’s/my immunization record.<sup>3</sup>

The information I have provided on this form is complete and accurate. I acknowledge that I have read this document in its entirety and fully understand it.
