

Day-Long Adventure Packages

Rock & Rappel: This adventure will begin with a steep, one-mile hike to our rappelling and climbing location where we will spend the day. Our rappelling site can allow two participants at a time to control their descent down the 150-foot cliff face. Participants will have the opportunity to rappel at least twice. Following a sack-lunch break in one of the most scenic locations at IdRaHaJe, we will begin our rock-climbing portion. To access our climbing site, which is at the bottom of the cliff, all participants must descend a steep trail with 2 built-in permanent ladders. Our climbing area features several routes ranging from 5.6-5.9 in difficulty. We will teach you the basics of climbing and provide some climbing techniques used by climbers all over the world.

Climbing shoes up to size 13, helmets and harnesses will be made available for participants. Participants may bring their own equipment, but it may only be used after inspection and approval by a qualified IdRaHaJe staff member. You will be emailed a packing list that provides the recommended and encouraged gear to wear/bring. Like most outdoor activities weather may impact the activities we are able to do. **This package requires at least one (1) supervisory adult to participate with minors.**
